

JetTrac Account™

Updates MS Access™ tables with your JetForm Central™ data

Features

Runs as a JetForm Central™ process. As a JetForm Central process, JetTrac Account™ can run every time a JetForm Central job runs.

Adds records to an MS Access table. JetTrac Account inserts data directly to a MS Access table, giving you the freedom to design your queries and reports from inside of MS Access.

Gathers data from other sources. JetTrac Account can grab data from JetForm or from other data files in your system and insert them all into an MS Access table.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
