

Sends Internet Email from JetForm Central™

Features

Sends Internet Email automatically from JetForm Central™. JetTrac Email™ directs your output to the Internet.

Notify your clients by Email. As a part of normal JetForm Central processing, send notifications to your clients via Email.

Uses existing standard installations. JetTrac Email sends through any existing SMTP server.

Personalize your Emails. JetTrac Email allows you to specify the name, address and subject of the message.

Dynamically insert text. The body of the message can be fixed or have JetTrac Email build the text from your data for personalized messages.

Send official documents. Attach JetForm Central output files to the message as Adobe Acrobat® (.PDF) or HP PCL/TIFF/Postscript files.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
