

Notifies you by print, E-mail, andlor pager of JetForm Central events

Features

Sends notification when a JetForm Central event occurs. When Central finishes a job or has a problem, JetTrac Notify will notify you.

Flexible notification options. JetTrac Notify can notify you by printing a page to a specific printer, send an E-mail, beeping your pager, or all of the above.

Automatically triggered. Frees up your system resources and runs only when JetForm Central triggers it as a task.

Allows for operator freedom. Your staff can do their jobs and not have to worry about JetForm Central issues untill notified by JetTrac Notify.

Cross-Platform. JetTrac Notify is a Java program that supports all Java platforms.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
