

Simplifies Tech Support by automatically retrieving customer configuration files

Features

Gathers all production files. JetTrac Support automatically gathers all the customer's production files and packs them into a single zip file for them to send back to you.

Minimal customer involvement. JetTrac Support only requires the customer to run a single executable file. JetTrac Support automatically searches for the files it needs with no manual configuration.

Generates an intelligent log file. JetTrac Support generates a log of the status of all files and includes the log in the zip file, so there is only a single output for customers to deal with.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
