

Adobe® Central Output Server Training

Training Information

Training Prerequisites

We do not require any JetForm/Adobe® Central/Design background, but our class is almost totally based in the MS Windows environment. We assume that students will already be experienced and comfortable with basic Windows concepts:

- Using the mouse, dragging, selecting, right-clicking, etc.
- Menus, Start Menu, dialog boxes, etc.
- Cutting, Copying, Pasting, with both the Edit menu and the Control-key combinations.
- Finding, opening, naming and saving files on the hard drive. Very Important!
- Using a text editor to manipulate and modify files.

If you are not able to do the above things, you will not receive maximum benefit from our training and will feel very rushed or even completely lost.

Training Hours

We expect class to start at 8:30am and end at 4:30pm Pacific Time every day. But, class may go shorter or longer depending on the needs of the class.

Where to stay

All these hotels are in Simi Valley within 5-10 minutes from our office (in order of quality). See the directions page to find out how to get in and out of the hotels.
